

CHAITANYA UTTARWAR

slaykernels@duck.com

Professional Summary

Seasoned Java, database and .Net developer with more than 4 years of experience in fast-paced agile development environment. Excellent Programming and research skills. Track record of achieving exceptional results in consuming RESTful services, Database services, Backend services and Automation.

Technical Skills

- **Programming Languages:** Java, C, C++, C#, JavaScript, CSS, HTML, PHP, React, Node
- **Databases:** MySQL, MongoDB, SQLite, Microsoft Azure, AWS S3/RDS
- **Technology:** Spring Framework, Maven, Dialogflow, UiPath, Automation Anywhere, Katalon, PowerBi, .NET, Kafka, React, Agile SAFe certified
- **Tools:** Git, Jenkins, Jira, Postman, SoapUI, Latex

Experience

Full Stack Developer

01/2020 to Present

Manulife Financials – Waterloo, ON, Canada

- Redesigned and modified critical stored procedures to speed up weekly employee data loading into the database in half the time.
- Single handedly operated Manulife Pulse check system for feedback sharing among colleagues and leadership improving efficiencies over the Business units.
- Made robust and modular database APIs for applications hosted on Pivotal Cloud Foundry.
- Worked extensively on Katalon scripts for automating manual processes, saving weeks of man hours.
- Redesigned tables to accommodate database scaling and ensured data integrity with triggers and procedures.
- Improved internal app features using React and integrated various APIs from Manulife, Microsoft, and Survey Monkey.
- Individually devised a method to change legacy code and prevented tons of paper waste by reducing paper trails and physical printouts sent to customers.
- Enhanced system efficiencies by reducing turnaround time and minimizing errors in the claims process.
- Recognized and Appreciated among teams for quick problem solving and eye to details.

Programmer Analyst

09/2017 to 04/2019

Cognizant Technology Solutions Pvt Ltd – Chennai, TN, India

- Contributed to spring framework build in Maven and Jenkins to develop RESTful web services which were to be used by America's leading Investor-owned utility.
- Conducted logical analysis of engineering, and other technical problems. Formulated models of solutions.
- Contributed, deployed and maintained various webservices on Heroku as well as EC2/AWS.
- Developed and tested a chatbot for client website on Dialogflow with webhooks running on google firebase.
- Worked on a chatbot for Facebook messenger with webhooks coded in php and running on Heroku.
- Created an automation tool for internal process on UiPath and Automation Anywhere.
- Achieved a global rank of 12 in an internal competition on Java and was given a title of "Orbit Shifter"

Education

Graduate Certificate, Mobile Solutions Development:

May 2019 – August 2020

Conestoga College - Waterloo, Ontario

- Coursework related to HTML, React, CSS, JavaScript, Android, iOS and C#
- Scored 3.89 GPA
- Made it to the Dean's honor's list with no subject less than 80%

Bachelor of Engineering, Computer Science:

August 2012 - May 2017

Pune University - Pune, Maharashtra

- Graduated in top 5% of the class. (GPA: 3.9/4.0, First Class with High Distinction)
